DEVELOPER PROJECTS

Strolls: a Walking Adventure: Nov 2022

Rails app built with React front end using TailwindCSS, Mapbox, and Figma for design. The app allows a user to look up their neighborhood and find points of interest to explore and add photos of their own.

Gamerverse: Nov 2022

Designed and built this personal project to search and view video games. Built using RAWG API, React, and TailwindCSS.

Grandma Finch's Maple Syrup: Oct 2022

Designed and built a responsive website for a mom and pop maple syrup business. Made with React and TailwindCSS.

Raine Gauthier Photography: Sept 2022

Designed and built a 10-page gallery website for a client with HTML5, CSS3, & JavaScript.
